

# What COVID-19 means for RevRoad

Hello everyone,

We have previously sent information regarding the novel Coronavirus (COVID-19), including the current risk assessment and what response RevRoad would have, if any, to the situation. RevRoad's policy is to follow the guidelines set by the appropriate state and federal authorities.

Since that time, the Utah State government has issued new guidelines as a preemptive measure to limit the possible spread of the virus. According to the new guidelines issued by the Utah Coronavirus Task Force, they are recommending that beginning Monday, March 16, any gathering of more than 100 people be canceled for at least two weeks. This will allow them to increase their testing capabilities and understand better the spread of the virus and determine if tighter restrictions are needed.

As a result, RevRoad is following the recommendation of the Utah Coronavirus Task Force and Utah Governor Herbert and suspending our events that have the potential of exceeding that threshold.

## **These events include the following:**

- **The 2020 Entrepreneur Competition (Mar 21)**
- **Growth Factor (Mar 18)**
- **Mid-Monthly Potluck (Mar 18)**
- **RevUniversity (Apr 2)**
- **Sales Ninja Dojo (Apr 2)**
- **RevUp (Weekly on Thursday)**
- **1MillionCups (Weekly on Wednesday)**

The official recommendation of the task force can be found [here](#).

The recommendations of the Utah Task Force do NOT suggest ceasing normal business operations at this time; therefore RevRoad will continue to operate normal business hours.

We will continue to follow the guidelines that have been previously published by the appropriate authorities. We continue to monitor the appropriate outlets for any changes to guidelines and recommendations and we are ready to implement those as they are published. Once we are able to reschedule and resume our events we will let you know what our new schedule will be.

In the meantime, we would urge everyone to follow the guidelines posted on the Center for Disease Control and Prevention [website](#). That will give you the most up to date information on the situation and ways to protect yourself and your family.

Additional information for the state of Utah, in particular, can be found [here](#).

For additional questions regarding RevRoad events, please reach out to [info@revroad.com](mailto:info@revroad.com).

Thoughtfully,

– RevRoad
