talsey <mark>a</mark>i

Empowering hoteliers to *master* customer satisfaction.

Talsey uniquely solves a multi-billion dollar problem in hospitality.

There is one major distinction between hotels that are extremely profitable and hotels that struggle to surpass mediocrity: **excellent guest satisfaction**.

Talsey is an AI guest assistant, increasing positive reviews by 50% and decreasing complaints by 60% across a variety of hotels & resorts.

Talsey is exploding onto the scene through industry events.

After generating the majority of the ~\$100k ARR at one event near the end of 2023, Talsey is poised for incredible growth in 2024.

With this cash infusion, the Talsey AI team will attend 8–10 conferences/conventions, shooting for \$1M ARR in 2024.

Talsey AI is entering the market with <u>perfect</u> timing.

SMS-based guest service began to grow rapidly within the hospitality space before falling off due to a serious labor shortage.

By creating revolutionary ease-ofuse for hotels, Talsey can enable any hotel staff to successfully reap the rewards of SMS guest service.

Key Differentiators

- First-to-market advantage in the Economy/Business hotel sector
- Only Al-powered guest communication system that sends key conversation insights directly to hotel staff members via mobile device
- Easiest usage for all levels of hotel staff
